EXPERIENCE

Retailo — Software Engineer (Backend)   *January 2022 - Present*

As the fastest growing B2B startup in the MENAP region, Retailo is digitizing the retail supply chain for SMEs.

- Migrated 5+ monolithic modules to independent microservices, resulting in API response time reduction of upto 25%.

- Maintaining and handling scalability of core services such as authentication, configuration, etc to ensure smooth running of customer facing modules for a user base of 50K+.

- Developed in-house multichannel notification library which can target the customer through SMS, email and push-notifications.

IBM — Application Consultant (Unica, AWS & Azure)   *April 2020 - January 2022*

IBM Consulting accelerates business transformation by integrating expertise with data and advanced technologies.

- Oversaw day-to-day digital marketing campaigns of Vodafone Qatar for an active userbase of 2M+ customers.

- Developed targeted marketing campaigns to increase average revenue per user (ARPU).

- Strategized with the client to map business requirements to development workflows.

- Automated logs ingestion flow to obtain analytical insights which increased efficiency by over 50%.

Xgrid — Software Engineer (Full-Stack)   *September 2019 - March 2020*

As one of the fastest growing software services companies in Pakistan, Xgrid helps its clients grow through cloud migrations and a strong focus on meticulous designs.

- Expanded Cisco SD-WAN 3-tier orchestration application to incorporate horizontal scaling which would result in performance improvements of over 100%.

- Incorporated changes to handle parallel deployments on Microsoft Azure.

- Developed UI components and APIs according to UX specifications and workflow requirements.

EDUCATION

COMSATS University, Islamabad   *September 2015 - July 2019*
